

## SIREX® SELF INFLATING MAT

### What you should know before you buy a self inflating mat.

With a high-quality article like the self inflating mat performance depends largely on the way the article is used. The technical composition of the foam ensures the return to the "original" shape. When a mat has been stored in a rolled form for a longer period of time, it will take longer for the foam to inflate. The first time you will have to help a little by blowing the mat a little more yourself.

### Before use

- Inspect the ground and remove sharp materials.
- Open the valve and roll out the mat.
- The speed of inflation depends largely on the period for which the mat has not been used and was stored rolled up.
- You can always add a little air by blowing it yourself (do not use a compressor).
- Close the valve.

### After use

- Open the valve.
- Roll up the mat by squeezing the air out by hand and close the valve.
- Always store the mat clean and dry in the appropriate stuffsack.

### General information

- If you leave the mat during daytime **always keep the valve OPEN**.
- Be cautious with any fire source, foam is flammable.
- Keep away from insecticides and solvents.
- Use only soapwater to clean the mat.
- When the mat is to be stored for a longer period of time open the valve and leave it in a rolled out condition.

### Warranty

- The mats are fully guaranteed against defects of material and fabrication for the natural lifetime of the mat under normal use (maximum 10 year).
- Warranty is not applicable to damage caused by any sharp objects, overheating and other neglect or misuse.

Any information in this document is presented to our best knowledge. All properties are based on individual values and should be considered as a guideline, not as a specification. They are in no way legally binding. Further are applicable the general terms of payment and delivery of Imbema Holland B.V. and her affiliated companies, in which, among others, has been taken a restriction of liability. They are registered on October 15<sup>th</sup>, 1982 at the district-court in Haarlem, The Netherlands. These can be sent on demand.
